**English****WEEE Statement**

In order to cope with the increasing waste electrical and electronic equipment, reduce the use of landfill and incinerator, and prevent the harmful matter of waste equipment from entering the environment, the European Union (EU) has set the Directive on Waste Electrical and Electronic Equipment (WEEE) asking manufacturers to collect, recycle and treat waste electrical and electronic equipment properly. Member nations already established their free of charge recycle systems of WEEE before August 13, 2005. Accordingly, SySTOR has to be responsible for recycling all products exported to Germany. You can return your SySTOR product that needs recycling to a local collector.

**WEEE Erklärung****German**

Mit dem Ziel die steigende Menge elektrischer und elektronischer Altgeräte zu bewältigen ohne hierzu unnötig Mülldeponien und Verbrennungsanlagen zu belasten und um die Verschmutzung der Umwelt durch freiwerdende Stoffe aus den Altgeräten zu vermeiden, hat die Europäische Union (EU) die Richtlinie über Elektro- und Elektronik-Altgeräte erlassen. Die Richtlinie verpflichtet Hersteller, elektrische und elektronische Altgeräte umweltgerecht einzusammeln, zu recyceln und zu entsorgen. Die Mitgliedsstaaten der EU haben bereits ihre kostenfreien Recyclesysteme konform der WEEE vor dem 13. August 2005 eingerichtet. Entsprechend der Richtlinie ist SySTOR verantwortlich für die umweltgerechte Entsorgung aller nach Deutschland exportierten SySTOR Produkte. Sie können Ihr zu entsorgendes SySTOR Produkt zu Ihrer örtlichen Sammelstelle bringen.

**AEEA verklaring****Dutch**

Met het doel de stijgende hoeveelheid afgedankte elektrische en elektronische apparatuur te beheersen zonder hiervoor onnodig stortplaatsen en verbrandingsovens te beladen en om de vervuiling van het milieu door vrijkomende stoffen uit de afgedankte apparatuur te voorkomen, heeft de Europese Unie (EU) de richtlijn betreffende afgedankte elektrische en elektronische apparatuur besloten. Deze richtlijn verplicht fabrikanten afgedankte elektrische en elektronische apparatuur in te zamelen, te recyclen en te verwijderen. De lidstaten van de EU hebben reeds de kosteloze recyclesystemen volgens de AEEA voor de 13 augustus 2005 ingericht. Conform de richtlijn is SySTOR verantwoordelijk voor de verwijdering van alle naar Nederland geëxporteerde SySTOR producten. U kunt uw afgedankt SySTOR product naar uw lokale inzamelplaats brengen.

**Elektrik ve Elektronik Madde Atıkları Demeci****Turkish**

Elektrik ve elektronik madde atıklarının yükselmesiyle basedebilmek, arazi doldurma ve çöp yakma firını kullanımını azaltmak, atık madde zararlarının çevreye yayılmasını önlemek için Avrupa Birliği (AB), üreticilerden elektrik ve elektronik madde atıklarını gerektiği gibi toplamalarını, geri dönüştürmelerini ve kimyasal işleme tabi tutmalarını talep etmek için Elektrik ve Elektronik Madde Atıkları üzerine bir direktif hazırladı. Topluluk üyeleri, 13 Ağustos 2005' ten önce elektrik ve elektronik madde atıklarının ücretsiz geri dönüşüm sistemlerini coktan oluşturmuşlardır. Bundan dolayı,

SySTOR, Almanya'ya ihrac ettigi butun urunlerin geri donusumunden sorumludur.SySTOR urunleri geri donusum gerektirirse yerel toplayicilara geri verebilirsiniz.

#### WEEE бюллетень

#### Russian

Чтобы справиться с увеличивающимся ненужным электрическим и электронным оборудованием, уменьшите использование закапывания мусора и использования установки для сжигания отходов, препятствуйте вредному выбросам загрязнять окружановки среду, Европейский союз (ЕС) установил Директиву по Ненужному Электрическому и Электронному Оборудованию (WEEE) для того, чтобы изготавителей собрали, перерабатывали и вообще проявили внимание к ненужному электрическому и злекtronному оборудованию должным образом. Члены нации установили бесплатную систему и злекtronному оборудованию должным образом. Члены нации установили бесплатную систему переработки WEEE до 13 августа 2005. Соответственно, SySTOR обязан быть ответственным за то, что переработал все продукты, экспортируемые в Германию. Вы можете возвратить ваш продукт SySTOR, который нуждается в рециркуляции местному сборщику.

#### WEEE Statement

#### French

Afin de gérer la quantité croissante de déchets électriques et électroniques, de réduire l'utilisation des décharges et des incinérateurs et d'éviter que des déchets nocifs ne polluent l'environnement, l'Union Européenne a publié la directive WEEE sur les déchets électriques et électroniques. Celle-ci spécifie que les fabricants doivent collecter, recycler et traiter l'équipement électronique et électrique usagé. Depuis le 13 août 2005, les pays membres ont mis en place un système de recyclage gratuit selon le WEEE.,

De ce fait, SySTOR est responsable du recyclage de tous les produits exportés vers l'Allemagne. Vous pouvez mettre au rebut votre équipement SySTOR usagé dans votre centre local de recyclage.

Pour plus d'informations sur les lieux de mise au rebut des équipements usagés destinés au recyclage, veuillez contacter votre mairie, votre service de traitement des déchets ménagers ou le magasin où vous avez acheté le produit.

#### RAEE

#### Spanish

Con la finalidad de reducir el incremento de residuos eléctricos y de material electrónico, reduciendo el uso de los vertederos e incineradoras y prevenir el preocupante aumento del contacto de estos residuos con el medio ambiente. Por este motivo la Unión Europea ha fijado la Directiva de Residuos de Aparatos Eléctricos y Electrónicos (RAEE) solicitando a los fabricantes la recolección, reciclaje y tratamiento de estos residuos correctamente. Los países miembros ya han establecido su sistema de reciclaje gratuito de RAEE antes del 13 de Agosto del 2005. Por este motivo SySTOR es el responsable del reciclaje de todos los productos exportados a Alemania. Usted puede devolver su producto SySTOR a un punto de recogida local cuando deseé reciclarlo.

#### Dichiarazione WEEE

#### Italian

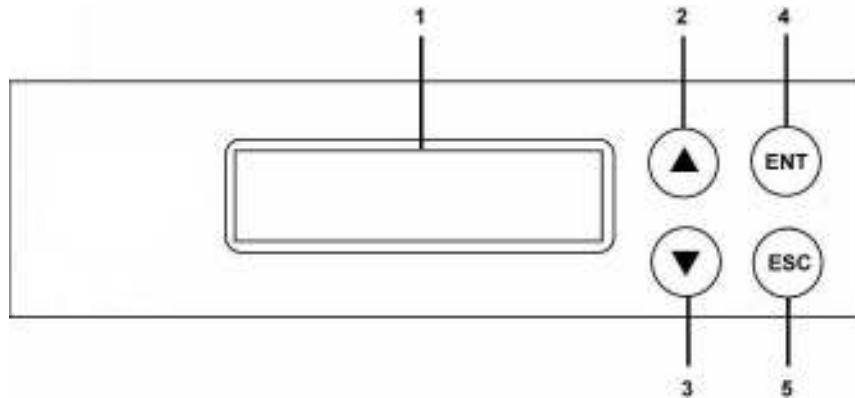

Per far fronte all'aumento dei residui delle apparecchiature elettriche ed elettroniche, ridurre l'uso di materiale di riporto e degli inceneritori, ed impedire che il materiale nocivo delle apparecchiature residue entri a contatto con l'ambiente, l'

Unione Europea (UE) ha stabilito le Direttive sui Residui delle apparecchiature Elettriche ed Elettroniche (WEEE) chiedendo ai fornitori di raccogliere correttamente, riciclare e trattare le apparecchiature elettriche ed elettroniche residue. Le nazioni facenti parte dell' Unione Europea hanno già stabilito il loro sistema gratuito di riciclaggio di questo materiale (WEEE) prima del 13 agosto 2005. Di conseguenza, SySTOR è responsabile del riciclaggio di tutti i prodotti esportati in Germania. Potete restituire il vostro prodotto acquistato da SySTOR che deve essere riciclato da un' azienda specifica locale.

## Chapter 1 Basic Instructions

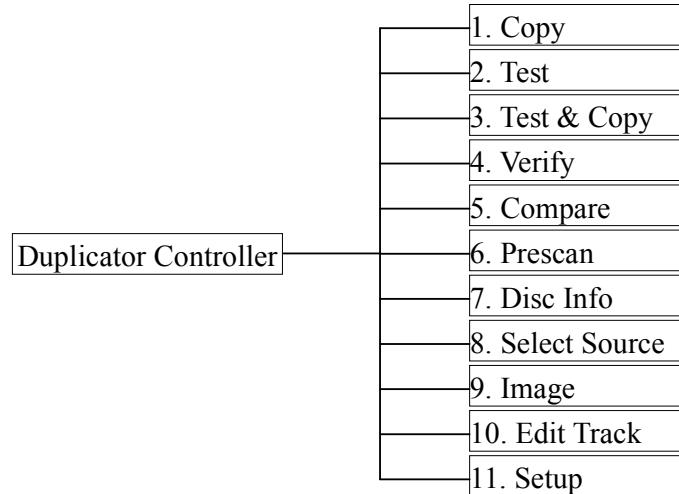

There are four buttons and a LCD on the panel of SATA Copy Standard Version.

1. It shows a function or a message.
2. It's used to scroll up function menus.
3. It's used to scroll down function menus.
4. It's used to execute a function.
5. It's used to cancel a function.

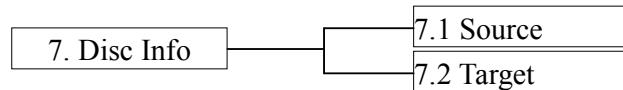

## Chapter 2 Functions

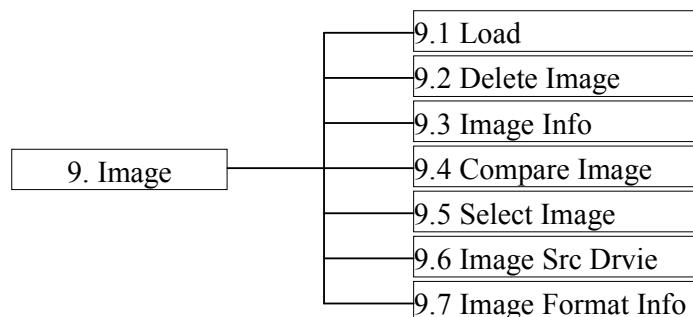

There are 11 major functions in the copy controller as the following figure shows, and there are sub functions in Function 7, 9, 10, and 11 as the following figures show.

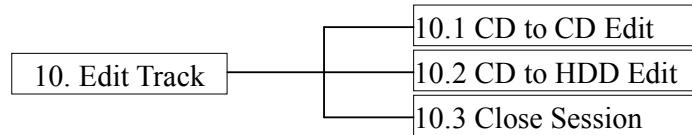

In Function 7 there are 2 subfunctions.

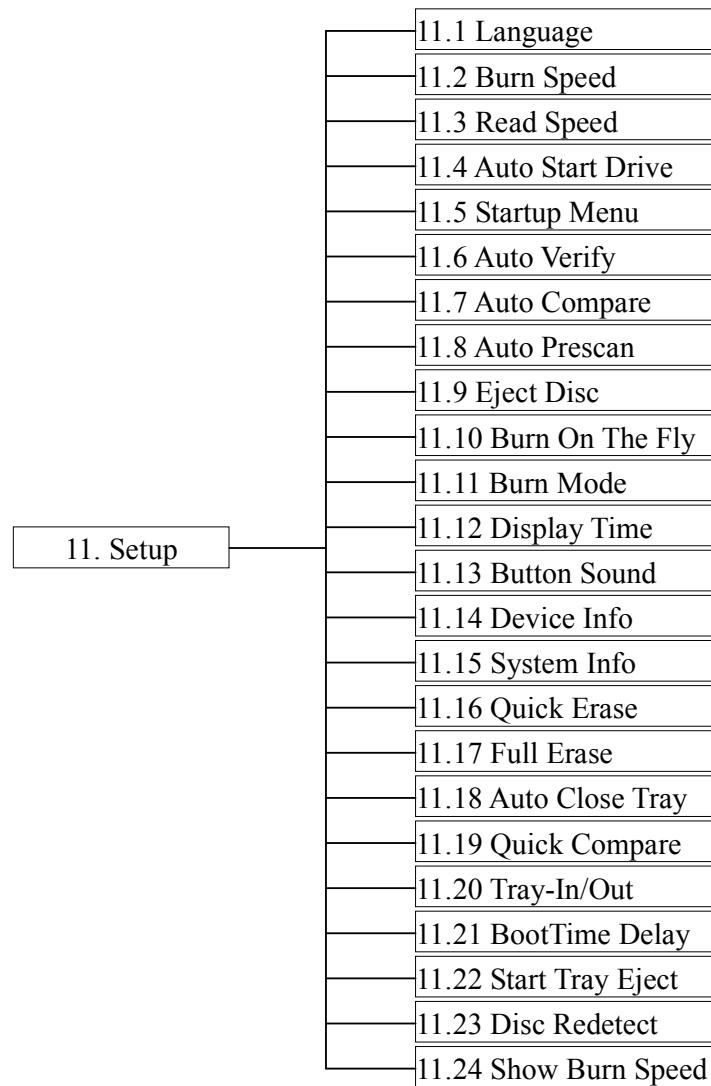

In Function 9 there are 7 subfunctions.

In Function 10 there are 3 subfunctions.

In Function 11 there are 24 subfunctions.

Among the 11 functions, Function 10 Edit Track is designed exclusively for editing a collection of favorite songs from CDs. During operation if you don't understand an LCD message, see Appendix A.

## 2.1 Copy

Function#1 Copy, instant copy source (disc/image) to the target drives (optical writes). Use Function#8 to select source drive before copying.

Select function#1. place a source disc into source drive and blank disc into the target drives. A rewriteable disc can be used as target media, however all data will be erased before copying.

1.Copy

Press ENT to start copy function when all discs are ready .

After complete, system will show spent time and the amount of OK disc on the screen, the OK disc will be ejected.

OK : 01  
Time : 00:05:01

## 2.2 Test

Function#2, copy simulation, no data will be written to the write once media (DVD+R is not supported for this function).

2.Test

Press ENT to start simulation. If rewriteable disc is used, all contained data will be erased before simulation.

OK : 01  
Time : 00:05:01

## 2.3 Test & Copy

Function#3, will do copy simulation before copy function.

3. Test & Copy

Press ENT to start simulation and copy.

Note, only passed test disc will do the copy.

## **2.4 Verify**

Function#4, check readability of the burned disc.

4. Verify

## **2.5 Compare**

Function#5, to check if target disc is identical to source disc.

5. Compare

Compare result :

OK : Source and target disc are identical

Fail : TOC not match, compare skipped due to contains do not match.

Diff : shows how many bytes are different.

## **2.6 Prescan**

Function#6, to check if source disc is readable and without read error.

6. Prescan

## **2.7 Disc Info**

Function#7, to report disc information, disc type and capacity.

7. Disc Info

## **2.8 Select Source**

Function#8, to set which drive as source device.

8. Select Source

The drive on CH01 will be chosen as source device. Press ENT, and then press ▲ ▼ to select the source.

Assume that HDD is selected as the source device and selected partition contains no data, an error message “Source Drive Not Ready” will show on LCD while trying copy function. In that case, go to Function#9 Image to load the data into the chosen partition first.

## **2.9 Image**

Function#9 Image is valid only when a hard disk is installed. Disc is loaded to hard disk as an image file. Refer to page 11 for the menu.

9.Image

### **2.9.1 Load**

Load function loads whole disc data from any writers into the current partition of the hard disk. “P:A” means current partition is A.

9-01. Image P:A  
Load

### **2.9.2 Delete Image**

If you want to delete an image file stored in a particular partition, you can use this function to delete image.

9-02. Image P:A  
Delete Image

Press ENT, the system will confirm with you for the action, use ▲ ▼ to select Yes or No, then press ENT for confirmation.

Delete Image?Yes  
A:AUDIO 537MB

### **2.9.3 Image Info**

To check selected image information. First, enter into the function and press ▼ for more information.

9-03. Image P:A  
Image Info

### **2.9.4 Compare Image**

This function is used to check if created image is identical to source disc.

9-04. Image P:A  
Compare Image

When result shows on LCD, press ENT for more detail information.

Compare result :

OK : Source and target disc are identical

Fail : TOC not match, compare skipped due to contains not match.

Diff : shows how many bytes are different.

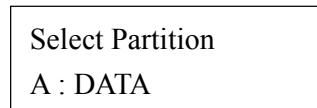

#### **2.9.5 Select Image**

This function is to select a partition as source image from the hard disk.

Pressing ▲ ▼ to select a partition, LCD will show image name and capacity.

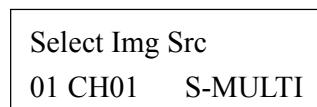

#### **2.9.6 Image Src Drive**

This function is used to set the image source drive for loading disc data into a particular partition.

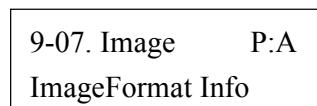

Enter into the function and use ▲ ▼ to select image source drive.

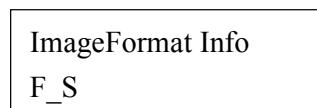

#### **2.9.7 Image Format Info**

This function shows which format is used for current hard disk. There are 5 formats for choice: F\_S, CD, DVD, DL (Double Layer) and auto.

Press ENT to see the following figure. This figure shows that the hard disk has been formatted as F\_S.

### **2.9.8 Edit**

This function is to edit selected image's title, sub1 title and sub2 title. Only valid when the current partition contains an image file can title.

9-08. Image	P:A
Edit	

A title should be composed of 1 to 13 characters. The character can be alphabet, number or the combination of both. Use ▲ ▼ to select the number or alphabet. After selecting a desired one, press ENT for next character, the end of key in, press and hold ENT for 2 sec and release for next title.

### **2.9.9 Format HDD**

Hard disk must be formatted by the system for the very first time. Hard disk will be partitioned into the chosen partition format.

9-09. Image	P:A
Format HDD	

If no hard disk is installed, LCD will show the message as No Valid HDD!

The default is F\_S.

All data on the hard drive will be erased after the hard disk format.

After the hard drive is formatted correctly, LCD will show “Format HDD ok!.”, Press ENT to verify HDD or press ▼ and choose No return back to menu.

### **2.9.10 LoadImage Method**

This function is to change the way to save Image. There are 2 formats for choice: Auto and Manual. Auto means system auto assign partition for loaded image. Manual let you to choose which partition to load image to.

9-10. Image	P:A
LoadImage Method	

The default is Auto.

Press ENT, and use ▲ ▼ to confirm Auto or Manual.

Then press ENT to save the configuration.

## **2.10 Edit Track (for CD only)**

Function#10 Edit Track is exclusively designed for editing a collection of favorite songs from CDs. In other words, you can collect songs on a number of CDs and merge them into a single CD. There are 3 sub-functions: CD to CD, CD to HDD and Close Session. Refer to page 11 for the menu.

### **2.10.1 CD to CD Edit**

To select songs from source CD, and then burn

10. Edit Track

10-01. Edit Track  
CD to CD Edit

Enter into 10.-01 function, 1/10 means the number one of the 10 tracks, and 03:55 means the length of track.

Select Track  
1/10      03:55

You can press ▼ to see the rest of tracks. If you want to select the track, press ENT then a “+” will show up, press ENT again will cancel the selection.

Select Track  
End      5Trk15:55

After selection, use ▲▼ move to the “End” which is between 1st track and last track.

Press ENT to end of selection, and use ▲▼ to confirm Yes or No.

Press ENT after burning, system will ask if you want to continue edit, use ▲▼ to confirm Yes or No.

If you want to continue edit, the current source CD will be ejected and ask you to insert next disc.

Repeat the above process for editing.

Insert next disc

After editing, system will show "Close all disc's session ? Yes", use ▲▼ to confirm Yes or No.

Once session is closed, no more tracks can be added.

Close all disc's  
Session ? Yes

*Attention:*

Commercial audio player might not be able to play open session disc, close session is suggested for max. compatibility.

### **2.10.2 CD to HDD Edit**

To select tracks from single or multi-audio CD and create image to specific partition of HDD.

10-02. Edit Track  
CD to HDD Edit

The basic operation method is same as CD to CD Edit, system still ask you to insert empty disc even the target drive is

HDD. If burning successful, system will show "Image load OK", which means the selected tracks are written to temporary partition.

Press ENT after burning, system will ask if you want to continue edit, use **▲ ▼** to confirm Yes or No.

If you want to continue edit, the current source CD will be ejected and ask you to insert next disc.

Repeat the above process for editing.

If "No" is selected, system will show "Burn or Move to partition?", use **▲ ▼** to confirm Burn or Move.

Burn : Burn the selected tracks to CD

Move to partition : Create an image for selected tracks.

Moving to P :

B

### **2.10.3 Close Session**

Single session format is used for Audio CD, and commercial audio player is not able to play open session audio CD, therefor session must be closed to max. playback compatibility. However, no more tracks can be added once session is closed.

10-03. Edit Track

Close Session

## **2.11 Setup**

To change the default setting. However, it is suggested to use the default for the optimal operation. There are 24 sub-functions: Language, Burn Speed, Read Speed, Auto Start Drive, Startup Menu, Auto Verify, Auto Compare, Auto Prescan, Eject Disc, Burn On The Fly, Burn Mode, Display Time, Button Sound, Device Info, System Info, Quick Erase, Full Erase, Auto Close Tray, Quick Compare, Tray-In/Out, BootTime Delay, Start Tray Eject, Disc Redetect and Show Burn Speed. Refer to page 10 for the menu.

11. Setup

### **2.11.1 Language**

Now press ENT, and you will enter the following figure. The function Language lets you select a language in which messages can be shown on LCD.

11-01. Setup

Language

Press ENT. The default is English. Spanish, Japanese, Traditional Chinese and Simplified Chinese are made to order.

### **2.11.2 Burn Speed**

Now press ESC and ▼ to enter the following figure. This function lets you control the burning speed of CD writers.

11-02. Setup Burn Speed
----------------------------

Press ENT. The DVD Burn Speed will be shown and the default is 8X. Press ▼ for change the selection. The next one is BD Burn Speed and the default setting is 2X then Press ▼ to change the selection to CD Burn speed and the default setting is 32X. Press ▼ for change to Audio Burn Speed the selection and the default is 16X.

### **2.11.3 Read Speed**

To change default reading speed of source disc.

11-03. Setup Read Speed
----------------------------

The default is maximum, the speed would depend on the reader drive's read speed and media type and format.

### **2.11.4 Auto Start Drive**

System will auto start to copy or test once blank disc is ready.

The default is Off. Press ▼ to select 1 or 2 (bla 11-04. Setup Auto Start Drive
---

### **2.11.5 Startup Menu**

To select any function from #1 to # 13 as the first item appears on the screen whenever system is turned on.

11-05. Setup Startup Menu
------------------------------

The default is “1.Copy”, and “15.Adv Setup” is not valid for this setting.

### **2.11.6 Auto Verify**

To set if auto verify target disc's readability after copy function.

11-06. Setup Auto Verify
-----------------------------

Press ENT. The default is Off. Press ▼ to select On.

### **2.11.7 Auto Compare**

To set if auto do comparison after copy function to check if source and target disc are identical.

11-07. Setup Auto Compare
------------------------------

The default is Off. Press ▼ to select On.

### **2.11.8 Auto Prescan**

To set if auto scan source disc before copy function.

11-08. Setup Auto Prescan
------------------------------

The default is Off. Press ▼ to select On.

### **2.11.9 Eject Disc**

There are 3 kinds of tray behavior when copy process is completed.

Eject Good Only: Only good disc will be ejected after burning.

Eject All Disc: All discs will be ejected after burning.

Do Not Eject: All discs stay in after burning.

11-9. Setup Eject Disc
---------------------------

The default is Eject Good Only.

### **2.11.10 Burn On The Fly**

Burn On The Fly means data will be copied directly from the source disc to the target disc. When the setting is Off, the data will be loaded into temporary partition of HDD first, then copy from HDD to disc.

11-11. Setup Burn On The Fly
---------------------------------

The default is On. Press ▼ to select Off.

### **2.11.11 Burn Mode**

There are two modes: DAO (Disc At Once) and TAO (Track At Once).

11-11. Setup Burn Mode
---------------------------

The default is DAO. Press ▼ to select TAO.

### **2.11.12 Display Time**

To set if display a timer while copying.

11-12. Setup  
Display Time

The default is On. Press ▼ to select Off.

### **2.11.13 Button Sound**

To enable or disable beep sound while press a key.

11-13. Setup  
Button Sound

The default is On. Press ▼ to select Off.

### **2.11.14 Device Info**

To show the writer information.

11-14. Setup  
Device Info

### **2.11.15 System Info**

To show system Information.

11-15. Setup  
System Info

### **2.11.16 Quick Erase**

To erase data on the DVD rewriteable discs quickly.

11-16. Setup  
Quick Erase

### **2.11.17 Full Erase**

To erase data on the DVD rewriteable discs completely. Compared with Quick Erase, Full Erase takes longer time to do the job.

11-17. Setup  
Full Erase

### **2.11.18 Auto Close Tray**

All tray will be closed in selected time and if disc is ready, system will auto start copy, test or both functions, depends on which function is stay on the LCD screen.

11-18. Setup  
Auto Close Tray

### **2.11.19 Quick Compare**

Quick Compare is related to function#5 Compare. Once compare error byte reach to the setting figures, compare process will stop.

11-19. Setup  
Quick Compare

The default is Off, press ▼ to select 1 Byte, 1 KB, 10 KB, 100KB, 1 MB, 10MB, 100MB etc.

### **2.11.20 Tray-In/Out**

Lets you control the drive tray ejecting.

11-20. Setup  
Tray-In/Out

Press ENT. The default is All Once and there have Divide 2 Times for selection.

### **2.11.21 BootTime Delay**

To set the device scanning time during the system booting.

11-21. Setup  
BootTime Delay

The default is 5 second, more option is up to 99 seconds.

### **2.11.22 Start Tray Eject**

To set if do eject all tray after system boot up.

11-22. Setup  
Start Tray Eject

The default is On. Press ▼ to select Off.

### **2.11.23 Disc Redetect**

The function is designed specially for bad quality disc, the system will detect the disc one more time if disc recognition error occurred.

11-23. Setup  
Disc Redetect

The default is Off. Press ▼ to select On.

### **2.11.24 Show Burn Speed**

Now press ESC and ▼ to enter the following figure. This function lets LCD shows the burning speed of CD/DVD/BD writers.

11-24. Setup  
Show Burn Speed

The default is On. Press ▼ to select Off.

## **Chapter 3 Troubleshooting**

### **3.1 About LCD**

After you power up, if there is no display on the LCD, check if the connection of power cord is firm and the environment of power outlet is normal.

### **3.2 About Error Messages**

During Copy, Test, Compare and Verify, etc. if you press ESC to abort, an error message will appear on LCD. Abortion may cause the copy controller to hang up, therefore you have to power on again.

If reading fails, an error message will appear on LCD. Get a new source DVD to try again.

If the copy controller hasn't detected any device after powering on, an error message will appear on LCD.

### **3.3 About DVD-ROM/DVD Writers**

If a DVD-ROM or a DVD writer cannot read, confirm the format of the source DVD and check if it is damaged.

Use any DVD writer to read the source DVD. If it works, the DVD-ROM is probably defective or not compatible with the source DVD.

### **3.4 About Buttons**

If you press any one of the four buttons on the panel, but there is no response, it is perhaps that the button cannot function well. Inspect the jumper setting.

### **3.5 About DVD Writer Not Readable**

After copying if the DVD writer is not readable, use Compare to examine, or get another DVD-ROM to test.

### **3.6 About High Failure Rate**

If the failure rate of data copying is pretty high, please following the following procedures to improve it.

1. Lower the speed of DVD writer.
2. Inspect if the blank disc's quality is good.
3. Update the firmware.
4. Inspect the DVD writer's maximum writing speed. If the speed is over 8X, copy the data to a hard disk first, and then transmit to DVD.

### **3.7 About Firmware Update**

If you cannot update the firmware, please inspect the firmware. Perhaps you have downloaded a wrong file.

Failure in firmware update may cause the copy controller to fail in booting. Under the circumstances, return the control board to distributor for repair.

## Appendix A LCD Messages

### 1. Normal Conditions:

All data will be lost, erase?.....	All data on the disc will be lost. Confirm the erasing of data.
Analyzing.....	Analyze the source disc.
Audio Disc!!! Can't compare!.....	The system cannot compare the audio discs.
Cannot read TOC.....	The system cannot read the contents of disc.
Check Target Please Wait .....	The system is checking the target device.
Detect Drives.....	Detect what drives are connected with the system.
DVD-RW does not Support the Func.....	DVD-RW doesn't support this function.
Erase Finished.....	The erasing of data comes to an end.
Erasing disc.....	The system is erasing the data on the disc.
Fail to get Drive Info!.....	The drive information cannot be obtained.
Fail to get Src Disc Info!.....	The information of source disc cannot be obtained.
Hold ESC to exit.....	Press ESC for a second to terminate the test.
Identical.....	The comparison results are the same.
Initialize SDRAM.....	Initialize the memory of the system.
Load Default Config?.....	Do you want to load the default settings?
No Erasable Disc in DVD-RW!!.....	The disc on the DVD-RW device is not rewritable.
Preparing.....	The system is preparing to record.
Press a Key to Eject Fail Disc. ....	Press any key to eject the failed disc after copying.
Press a Key to Eject Good Disc.....	Press any ket to eject the good disc after copying.
Read disc error .....	During comparison the disc cannot be read.
Save new config Fail!.....	The new setting of configuration cannot be saved.
Source Disc Empty!!!.....	The source disc doesn't contain any data.
Source Disc Not Ready.....	Source disc is not ready to be read.
Source Drive Not Ready.....	Source drive is not ready to read.
Src&Tgt can't in the same channel.....	During comparison the source and target discs cannot be in the same channel.
Target Disc Not Empty!!!.....	The target disc still has data.
Target Disc Not Ready.....	Target disc is not ready to be written into.
Target Drive Not Ready.....	Target drive is not ready to write.
Target overflow.....	The target disc hasn't enough capacity to store new data.
TOC not match.....	The comparison results are not the same.
User Abort!.....	Cancel the job during operation.

## 2. Connecting with a HDD:
